VERIFICATION OF A TRANSLATION

I, the below named translator, hereby declare that:

My name and post office address are as stated below;

That I am knowledgeable in the French language in which the below identified international application was filed, and that, to the best of my knowledge and belief, the English translation of the international application No. PCT/FR2003/003204 is a true and complete translation of the above identified international application as filed.

I hereby declare that all the statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the patent application issued thereon.

Date: March 23, 2005

RAPPORT D'EXAMEN PRELIMINAIRE INTERNATIONAL

Demande internationale n°

PCT/FR03/03204

I. Base du rapport

Le présent rapport d'examen préliminaire international se base sur la demande telle que déposée initialement.

V. Déclaration motivée selon la règle 66.2.a (ii) quant à la nouveauté, l'activité inventive et la possibilité d'application industrielle

A la lumière des documents cités dans le rapport de recherche internationale, il est considéré que l'invention telle que définie dans les revendications répond aux critères énoncés à l'article 33.1 PCT, c'est-à-dire qu'elle est nouvelle, qu'elle implique une activité inventive et qu'elle est susceptible d'application industrielle.

I. Basis of the report

The basis of international preliminary examination report is the application as originally filed.

V. Reasoned statement under Rule 66.2(a)(ii) with regard to novelty, inventive step or industrial applicability

In light of the documents cited in the international search report, it is considered that the invention as defined in the claims meets the criteria mentioned in Article 33(1) PCT, i.e. it appears to be novel and to involve an inventive step.
